# README – ettv

**Installation instructions:**

1. Extract the ettv-antman.zip to the folder where the game is installed.

2. Edit the **ettv.bat** file:

   `@ECHO OFF`
   No need to edit this line.

   `start ettv.exe +set com_hunkmegs 64 +set dedicated 1 +set fs_game etpro +set com_ignorecrash 1 +pb_sv_disable +exec server_ETTV.cfg %*`
   No need to edit this line.

   `start et.exe +set fs_game etpro +set com_ignorecrash 1 +connect 127.0.0.1`
   Either let this line be or replace **127.0.0.1** with your IP address or **localhost**.

3. Edit the **server_ETTV.cfg** found in the **etmain** directory (only the last three lines):

   `set ettv_clientname      "^5ETTV"`
   Put the desired ETTV client name here.

   `set ettv_autoplay       "1"`
   If you want to automatically resume to the next demo when the demo ends, leave this at 1.

   `demo demo0000`
   Replace **demo0000** with the name of the demo you want to play.

   Optionally you can also edit the passwords and **sv_maxclients** settings.

4. Run the **ettv.bat** and enjoy the show.

---

**MORE INFORMATION:**
You can find more information about ETTV Server Configuration on the WolfWiki:
ETTV:Server_Configuration
